**What are the key risk factors that are specific to the Issuer?**

Most material key risk factors	<ol style="list-style-type: none"> <li>1. The Company's business, results of operations, value of assets, any future reserves, cash flows, financial condition and access to capital depend significantly upon and may be adversely affected by the level of oil and gas prices, which are highly volatile</li> <li>2. Reserves and contingent resources are by their nature uncertain in respect of the inferred volume range</li> <li>3. The Company's hydrocarbon production may be restricted, delayed or terminated due to a number of internal or external factors</li> <li>4. The Company is subject to third-party risk in terms of operators and partners</li> </ol>
--------------------------------	---

## Summary

ISIN NO0012559246

	<p>5. The Company will require a significant amount of cash to service future debt and sustain its operations, and its ability to generate sufficient cash depends on many factors beyond its control</p> <p>6. The Company's working capital needs are difficult to forecast and may be subject to significant and rapid increases which could result in additional financing requirements that the Company may not be able to obtain on satisfactory terms or at all</p> <p>7. The Company has a significant infrastructure risk and may be subject to loss of production due to infra-structure damages or loss.</p> <p>8. The operations of the Company could potentially pollute the external environment. The Company extracts and sell oil and gas that emit CO2 that contribute to greenhouse gas emissions which affects the goal of reducing increase in temperature in the world.</p>
